

SNEHA KOPPARAPU

B.S. COMPUTER SCIENCE & DATA SCIENCE MINOR

(720)725-2185 | srivalli.kopparapu@gmail.com | [linkedin.com/in/sneha-kopparapu-8bb622286](https://www.linkedin.com/in/sneha-kopparapu-8bb622286)

SUMMARY

Computer Science Student with experience in C, C++, and Python programming, I have worked with multiple engineering student-led organizations, working on projects to build my skills in software, firmware, and data analytics. I am currently delving in RAG (Retrieval Augmented Generation).

PROFESSIONAL EXPERIENCE

Formula SAE: CU Racing Team

Aug 2025 - Present

- Programming in C for firmware and work with FreeRTOS (Real Time Operating System)
- Developed Logger using a Message Queue and interacting with Interrupt Service Routine
- Logger receives input from CAN signals correlating with the battery management system and pedals, and publishes it to the dashboard

FIRST Robotics Competition: Team 4293 (Komodo)

Jan 2021 - Apr 2025

- Designed intake system in SolidWorks using Computer-Aided-Design and prototyping
- Coordinated with system leads and the drivers to design and build a operator console that was logically intuitive and efficient.
- Lead scouting team during competition to observe and pick other teams for playoffs that best complimented our robot's abilities.

PROJECTS

Journey Through the Genome Game

Nov 2025 - Dec 2025

Developed in C++, takes user through series of tasks relating to the human genome

- Interactive User interface with eight different available tasks to complete at random
- Streamed data from outside databases to construct more accurate mini-games mimicking a lab environment

SKILLS

C++ Programming
Python Programming

C Programming
Real Time Operating Systems

Leadership & Communication
Data Analytics

EDUCATION

Bachelor of Science in Computer Science, Minor in Data Science

May 2029

University of Colorado Boulder - GPA: 3.912

- C++ Programming, Data Structures, Object-Oriented Programming

ADDITIONAL INFORMATION

- **Languages:** English, Telugu
- **Awards/Activities:** Math Student of the Year (High School - 2021-2022, 2022-2023), Presidential Volunteer Service Award: Gold, National Merit Commended Scholar, FIRST Robotics Competition: 2023 Colorado Finalist (Team Award)
